Tentative Schedule for CGR & CME Update

BPKIHS has been emphasizing the continuing medical education since its inception and CME Updates and Clinical Grand Round have been the most important components of the CME. It is our responsibility to make these programmes most suitable to all our faculty, residents and staff. Head of the concerned department are kindly requested to select a topic or a case most suitable for the CME Update and CGR respectively preferable in consultation with the colleagues from the related disciplines. It would be most useful if the topic selected is broad enough to involve as many disciplines as possible. Once the topic is finalized the concerned HoD may develop a programme schedule in consultation with the colleagues of the related disciplines and the Convenor of the CME Update. It would be appreciated if the programme is finalized well in advance and send it in advance and send it to the Dean, Faculty of Medicine Office for circulation

Given below is the tentative schedule of the CME Update and CGR from May 2006 to April 2007.

Month	CME Update	CGR
May, 2006	Obstetric & Gynaecology	Medicine/Psychiatry
June, 2006	Surgery	Orthopaedic/Radiology
July, 2006	Anaesthesiology	Ophthalmology/Otorhinolaryngology
August, 2006	Medicine	Surgery/Anaesthesiology
September, 2006	Psychiatry	Family Medicine/Dermatology
